Rifle Set Up
 .177
 8.4gn JSB
 11.3 ft/lbs
 775fps
 Zero: 25 yards

Target is at 45 yards and the pallet at 20 yards.
 Need to know both holdovers to ensure you don't shoot the pallet and don't miss the target.

- 20yard pallet, impact point is cross-hair (0 mildot)
 Ensure you don't aim crosshair at the pallet, aim at the gap
- 45yard target, impact point 1.2 mildots.
 Need to ensure 1.2 mildots is in the killzone.
 However, you would have your view of the killzone mostly obstructed by pallet. So you need to imagine where rest of killzone is to line up scope correctly, or take note of holdover for top of killzone, rather than for centre of killzone
- Adjust for wind...
